### Historian Story:

### Happy Birthday Walkin'-Talkin'-Sin'in'-Amon'us!

This week we celebrate the one year anniversary/birthday of our dear Forumite: the walking talking singing among us. This toy can walk around, repeat what you say (at obnoxious volume and higher pitch), and sing various songs for you! This guy has caused much chaos in the Forum, being tossed around, used to make fun of people, and just be a spectacle for all to behold. It even became a true Forumite, we set the amongus to walk mode and it walked into the room twice, on two separate occasions. Our dear previous president Shane has some trouble pronouncing the letter g, turning the "walking-talking-singing-amongus" into the "walkin-talkin-sinnin-amongus."
