## Historian Story:

Enjoy a double feature to wrap up this semester!

### Forum vs USG

The Forum gets a lot of money from USG. We use this to allocate for all sorts of whimsical things, like strange alien snail statutes, and BTD Dart Monkey plushies. We allocate for books or whatever too I guess... Unfortunately since USG gives us the big bucks, they feel the need to intrude on our elections. Since we do elections every semester, we have to wait on them every semester. And boy do we wait.

Last year during our fall elections they pushed back the date over four times. As our VP at the time William Winters said, "I wasn't even planning on being here and I am and USG isn't."

We believe this might be payback from that time that the Forum disbanded USG by infiltrating their elections, but who's to say.

(This is how we became the oldest continuously run club on campus)

### Festivus 2021

Before the event, people went to Costco and to get food. We got a Rotisserie Chicken that we gave out during the event via raffle.

The Feats:

- Feat of Strength (bopper fight) Brady won that (Didn't win for the next 2 years haha!)
- Feat of Luck (drinking salt water and regular water), Rachel won anyway because they only ever got regular water, so I guess it's a victory of luck.
- Feat of Skill, Pictionary battle, Rachel also won, if Rachel was better at fencing, could've been a full sweep, L Rachel.

After Feats, most important part of the night, one night Werewolf game, normally not done during Festivus (usually Halloween), as per request of VP at the time, Ken. There were allegations of potential shenanigans of him rigging the deck so him and Angela (his girlfriend) would be put together with the cupid cards, where he proposed. COMPLETELY DISGUSTING, RUINED THE GAME. She did say yes though. This marks 2 years anniversary of the proposal of their marriage.

They are doing well, but Angela is getting bit by children at work :[ Outside of that she's fine though. No tetanus yet.
